

ANNUAL REPORT 11

MISSION

The Texas Bar Foundation solicits charitable contributions and provides funding to enhance the rule of law and the system of justice in Texas, especially for programs that relate to the administration of justice; ethics in the legal profession; legal assistance for the needy; the encouragement of legal research, publications and forums; and the education of the public.

DEAR FRIENDS OF THE FOUNDATION,

Because of your ongoing financial support and commitment to our mission, your Texas Bar Foundation remains strong. In 2010-2011, your board of trustees continued its efforts to be good stewards of the funds entrusted to us. We also remain committed to the support of programs and organizations in Texas that are enhancing the rule of law, the administration of justice, and our legal system; promoting ethics in our profession; providing much-needed legal assistance to the poor and underserved; encouraging scholarly legal research, publications, and forums; and educating the public on the rule of law and our system of justice. In our 2010-2011 fiscal year, the Foundation awarded 53 grants totaling more than \$750,000. A complete listing of those grants, as well as a few stories highlighting several recipients, follows in this report.

The Texas Bar Foundation is a shining example of the commitment of Texas lawyers to both our profession and the people of this state. Reaching nearly \$20 million in assets at the beginning of this calendar year, we remain the largest charitable bar foundation in the country. Since its inception in 1965, the Foundation has awarded grants of approximately \$13 million. During the current 2011-12 grant cycle, we plan to add \$800,000 to that total. That amazing record of professional and community support is possible only because of the continuing generosity and commitment of our Fellows and other donors, like you. Thank you!

While none of us can predict the future vagaries of the stock market or even the short-term economic picture, I am confident that the Texas Bar Foundation will continue to do what it does best—serving our profession and the people of Texas wherever the need is the greatest. I also know that in an uncertain economy, each dollar to our grantees counts more than ever!

Gib Walton
2011-2012 Chair, Board of Trustees

For 46 years, the Texas Bar Foundation has relied on the generosity of its Fellows to improve the lives of the people of Texas. Beginning with a \$5,000 grant, the combined efforts of the Fellows over the years has resulted in the distribution of more than 900 grants throughout Texas totaling more than \$13 million. The financial support has grown, and the Foundation currently has five program areas:

YMCA TEXAS YOUTH AND GOVERNMENT PROGRAM

Since 1936, the student-led YMCA Youth and Government Program has provided students nationwide with the opportunity to serve in a simulated model government. Texas students participating in the mock legislative body identify important issues to research and then draft related bills. Their debate and impromptu speaking skills are tested through mock committee hearings and legislative debates. Many bills resulting from the Youth and Government Program have provided the basis for laws enacted by real legislative bodies. Examples include providing proof of automobile insurance, tying student attendance to school funding, and changing the voting age to 18.

As with any legislative body, the program includes a lobbying component and extensive media training. Each day, students broadcast television segments, produce newsletters, update the program website, and execute a complex social media strategy.

With the assistance of a Texas Bar Foundation grant, the YMCA of Metropolitan Dallas has expanded the program to rural and at-risk communities, increasing the number of students who are not just learning about government, but experiencing it!

“The funds awarded to the YMCA will help us establish, expand, and enhance Youth and Government along with giving our youth an opportunity to experience the program. Thank you for your support!”

– **Gordon Echtenkamp**, President/CEO YMCA of Metropolitan Dallas

TEXAS SUPREME COURT STUDENT EDUCATION DAY

More than 500 West Texas students experienced an important civics lesson, observing oral arguments before the Supreme Court of Texas. Through funding from a Texas Bar Foundation grant, the Amarillo Area Bar Foundation organized Texas Supreme Court Education Day. The Court traveled from Austin to Amarillo to hear arguments regarding the transfer of tax liens and the Texas Wrongful Imprisonment Act. Students enjoyed the rare opportunity to take part in a question and answer session with Chief Justice Wallace Jefferson. Jefferson explained the next steps regarding the day's arguments and gave the students a taste of the Court's operations.

"Because of the Texas Bar Foundation's generous grant, the Amarillo Area Bar Foundation was able to provide over 500 area high school and college students with the unique opportunity to watch the Texas Supreme Court conduct oral arguments in two cases. The grant allowed the AABF to bring the Court to Amarillo for a fantastic event that gave students an unforgettable learning experience."

CHILDREN'S ADVOCACY CENTER OF HOOD AND SOMERVELL COUNTIES

The Children's Advocacy Center of Hood and Somervell Counties was founded to meet the unique needs of child abuse victims. The Texas Bar Foundation awarded the center a grant for the purchase of forensic interviewing electronic recording equipment. New on-site equipment is more reliable and includes features that allow for more sophisticated mechanisms for recording, thus producing stronger evidence. The remote equipment permits immediate access to services that were not previously possible. Through equipment use, the forensic interviewers are able to obtain statements from children in an objective manner, focusing on the child's comfort level, and conducting interviews so that all participating agencies receive necessary information. This partnership has helped to reduce secondary trauma to child abuse victims and secure quality information. The Children's Advocacy Center will continue to strive toward breaking the cycle of abuse through education, family advocacy and forensic interviews - one child at a time.

"The Children's Advocacy Center exists to record the experiences of child abuse victims in a safe environment, educate the community, and serve families affected by child abuse. It was with great pride and gratitude toward the Texas Bar Foundation that the center was able to purchase equipment to better facilitate the recording of children's forensic interviews."

EQUAL ACCESS TO JUSTICE

Fort Bend County is one of the nation's fastest growing counties. Current unemployment and poverty rates exceed eight percent. The demand for legal services for the underserved continues to increase and local attorneys are responding, dedicating countless hours of pro bono work through Fort Bend Lawyers Care.

The Texas Bar Foundation granted seed money to expand Fort Bend Lawyers Care's programs to begin a weekly pro se self-litigant workshop at the Fort Bend County Courthouse. The local bar, judiciary, and district and county clerks have joined forces to improve services to low-income pro se litigants. The information and work conducted during the workshops allows more low-income citizens to represent themselves and for local courts to handle more cases.

"Due to the overwhelming response from the community for this support, we now provide self-help advice as part of many FBLC programs such as our Family Law Workshop, Legal Line, and bi-monthly Walk-in Legal Clinics. Pro se guidance is also provided on a weekly basis by FBLC's staff attorney. We believe the Texas Bar Foundation grant has had a significant beneficial impact on many individuals in Fort Bend County and FBLC thanks you for your assistance."

TEXAS ADVOCACY PROJECT

Texas Advocacy Project, the state's only statewide provider of legal services to victims of family violence, received a Texas Bar Foundation grant dedicated to technology resources for its Access to Attorneys Program. Low-income survivors of domestic violence and sexual assault often experience language, geographic and cultural barriers when seeking legal assistance. Victims often live in an area that lacks available pro bono attorneys and the victims do not have financial resources for travel.

The Access to Attorneys Program aids victims in remote areas of the state. The program simplifies the process for clients and maximizes the number of clients receiving direct representation. The network of participating attorneys continues to strengthen because of training opportunities offered through technology. In addition, the range of services available for clients participating in the pro se program is expanding.

Upgraded technology allows for remote legal kiosks in shelters throughout the state so that clients can communicate with attorneys through Skype. A new server allows more than 4,000 clients to be serviced through a legal hotline. Most importantly, partnerships between statewide legal providers have become stronger.

"Last year, Texas Advocacy Project provided legal advice and assistance to almost 15,000 women and their children who were experiencing violence in the home. Thanks to our partnerships with the Texas Bar Foundation and domestic violence shelters across the state, our statewide programs served clients in 185 out of 254 Texas counties representing over 97% of the state's population. One victim at a time, we are achieving our vision that no child should ever have to watch one parent harm the other."
